## Summary

I am a passionate Computer Science student with a love for coding, content creation, and continuous growth. I've built a variety of projects from web apps to AI-based tools while also exploring video editing and social media. I'm eager to learn fast, understand industry dynamics, and become a valuable team player in the future.

## Experience

Jan 2026 - Feb 2026

### Internshala Student Partner

Internshala

As an Internshala Student Partner, I engage fellow students in the value of internships and online training. I promote Internshala campaigns on campus, guide peers to find suitable opportunities, and participate in branding efforts, learning digital communication skills along the way.

## Education

2024 - 2028

### Satyug Darshan Institute of Engineering & Technology

Bachelor Of Technology

Percentage - 80% • CGPA - 8

I'm studying a range of topics like coding, data structures, and web tech and I'm getting to put that knowledge into real projects. I'm always learning more to get ready for the tech world.

## Certification

### Ethical Hacker

[Certificate Link](#)

Completed the Ethical Hacker course from Cisco Networking Academy. Learned ethical hacking fundamentals, penetration testing basics, vulnerability scanning, and network security concepts.

### Basic Introduction to Linux

Completed a foundational Linux course covering command line usage, file system management, and basic system operations. Gained hands-on understanding of working in Linux environments.

### UX Psychology in the AI Era

Participated in a GUVI session on UX Psychology in the AI era. Gained insights into user behavior, design thinking, and the importance of user experience in building effective AI-driven products.

### AI Tools and ChatGPT Workshop

[Certificate Link](#)

Completed an AI tools and ChatGPT workshop by be10x. Learned how to use AI for creating presentations, analyzing data, and coding and debugging efficiently. Gained practical exposure to applying AI tools for productivity and problem solving.

## Skills

- HTML
- CSS
- JavaScript
- Python
- C
- SQL
- Premiere Pro
- CapCut
- VN
- Adobe Photoshop
- Basic Figma
- Meta Ads
- Linux
- Basic AI Automation

## Projects

### MovieWatcher

Oct 2025 – Dec 2025

[Project Link](#)

MovieWatcher is a web app where users can search for any movie. It provides the overview, genre, IMDb rating, and a trailer all in one place. It helps users easily explore films they're interested in.

### Personal Portfolio Website

Jul 2025 – Sep 2025

[Project Link](#)

This is my personal portfolio website, showcasing my projects, skills, and background. It provides a central hub for anyone to learn about my work and how to connect with me professionally.

### MemoryChat

Dec 2025 – Jan 2026

[Project Link](#)

This project allows users to upload old chat histories, and the AI models the conversation style letting users interact in a familiar tone, evoking past memories.

### MedGuide – Pill Tracker

May 2025 – Aug 2025

[Project Link](#)

MedGuide – Pill Tracker is a medicine reminder web app designed to help users keep track of their medication schedules, dosage, and timings, with added functionality like FDA API-based drug safety alerts.

## Achievements

### Viral Social Media Reel

Achieved 3.3 million views, 120K likes, and 10K shares, demonstrating strong content engagement.

### Hackathon Participation at IIT Delhi

Participated in a prestigious hackathon, collaborating on innovative tech solutions and gaining hands-on experience.

### Developed Multiple Web Projects

I built a personal portfolio, a movie app with ratings, and a med guide tool, showcasing my coding skills and project execution.
